

## Lights, "Pink" Camera, Action

*Kj Burris*

My "Pink" camera and I go around and take pictures. I run around with a pink camera taking pictures of my random acts of kindness.

My brother and I play football, so I can prepare him for Princess Anne Middle School. He wants to be a Quarter back, so to help him out I decided to show him how to throw the football properly. I then show him how to catch the ball, at different angles or different positions.

Me and my brother decided to clean the spare room in are house to make it into a office for my mom, we decided to do this to take stress off my mother. To make me her even happier, I do the dishes and I clean the living and dining room. When she came home she was very proud of my brother and I.

I helped my Mother and Brother all in one weekend with their problems and skills. I've done a lot with my brother, and I made my mother proud of me.
